ST. CLOUD STATE UNIVERSITY

We are very pleased to invite you and your students to the upcoming Science, Technology, Engineering and Math (STEM) Summit at St. Cloud State University on Thursday, January 28, 2010, at the Atwood Center Cascade/Ballroom. The STEM Summit is an opportunity to bring students, parents, and local educators together with business and higher education leaders to build regional coalitions, promote STEM education and fuel the pipeline for the next generation of the science and technology workforce, which is our future!

The SCSU STEM Summit is designed to connect Minnesota's businesses and higher education communities to students in grades 7-12 across the state. Businesses, higher education and education organizations will present interactive exhibits to help Minnesota students experience opportunities in STEM coursework, careers and are a means of achieving success in the workforce.

There is no charge for this event; however you will be responsible for your own transportation. Please review the attached registration form and return it to us as soon as possible. We look forward to seeing you and your students on Thursday, January 28, 2010. If you have any questions, please feel free to contact us at crwilliams@stcloudstate.edu or call 320-308-3690.
