You're invited to the Grand Opening of the Science Express

Join us 11 a.m., Sept. 21 at Sauk Rapids-Rice Middle School
901 1st St. S., Sauk Rapids, Minn.

Devinder Malhotra
Provost and Vice President of Academic Affairs

David DeGroote
Dean of the College of Science and Engineering

Explore St. Cloud State University's mobile laboratory

Science Express is a mobile laboratory that will inspire young people to pursue careers in science, technology, engineering and math. Two slide-outs create a lab module where up to 36 students can perform hands-on, cutting-edge experiments using research-quality instrumentation. Students and scientists can meet and chat in the conference room.

Science Express typically spends a week at each school. An on-board instructor partners with the local science teaching staff to deliver activities from a portfolio that includes ELISA detection of Lyme disease, oil-spill remediation using oil-eating bacteria, DNA profiling, cardiac physiology and laser optics.
